

Opération ré-création. Rénovation et extension de la cour de l'école La Flûte Enchantée

Operatie re-creatie. Renovatie en uitbreiding van de speelplaats van de school La Flûte Enchantée

Rue de la Flûte Enchantée 30, 1080 Molenbeek-Saint-Jean
Toverfluitstraat 30, 1080 Sint-Jans-Molenbeek

A long, dark wooden building with many windows and doors, likely a residential or institutional facility. In the background, modern apartment buildings are visible.

A wide-angle photograph capturing a bustling school courtyard during a break. In the foreground, several students are walking across the paved area, some carrying backpacks. To the left, a group of students is gathered near a set of stairs, while others are scattered across the ground or sitting on the steps. The right side of the image shows more students walking away from the camera. The overall atmosphere is one of a typical school day with students engaged in various activities.

A paved surface featuring a repeating pattern of white and red diamond shapes. The pattern consists of small red diamonds arranged in a staggered grid, with larger white diamonds in the spaces between them. This creates a textured, geometric appearance on the asphalt.

A paved surface with several red reflective markers placed in a grid pattern.
